

VOPLLS G3

VOPLLS G3

The Standard Portable G3 LED LCD Projector from VOPLLS has 1200 ANSI lumens and an HDTV 1920 x 1080 resolution. Thanks to its LEDs, the projector has a specified light life of 30,000 hours, which equates to over 20.5 years at 4 hours per day. An image width of up to 352 cm is possible. However, the image should be smaller in room lighting. We recommend a maximum of 235 cm. Google TV turns the projector into a smart entertainment center with countless functions. The model recognizes Chromecast, Airplay, and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. It is also compatible with Full HD 1080P and 4K (compressed).

Brief Introduction

Beta 2.5
