

VOPLLS R1

VOPLLS R1

A brief introduction to the R1: the VOPLLS LED LCD projector offers 1200 ANSI lumens and HDTV 1920 x 1080 resolution. It is an LED projector with a 30,000-hour light lifespan, which is the equivalent of over 20.5 years at 4 hours a day. The horizontal and vertical keystone correction allows for flexibility when setting up. Since VOPLLS indicates the brightness of the projector in lumens, we have calculated an approx. Ansi-Lumen value in this case. An image width of up to 352 cm is possible because the projector has 1200 Ansi-Lumen. However, if there is room light, the image should not be wider than 235 cm. Since the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound from a smartphone, tablet, PC (Android, Windows and iOS) directly via WLAN. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.

Brief Introduction Beta 2.5

Display Type

1 x LCD TFT Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen

320

142 Lux (200 cm Screen width)
