

Wanbo T4

WANBO T4

A brief introduction to the T4: The Wanbo LED LCD projector offers 450 Ansi lumens, a contrast of 2000:1 and HDTV 1920 x 1080 resolution. The manufacturer Wanbo states a service life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. The ambient light sensor allows the projector to automatically optimize the projected image. The integrated media player can play files directly. 450 Ansi lumens ensure that a picture width of 216 cm is also possible. However, if room light is available, the picture should be max. 144 cm wide. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Playback of 1080P and 4K (compressed) is also no problem for the projector. With an operating noise of just 29 decibels, the model is already very quiet compared to others.
