

Wimius K13

WIMIUS K13

The K13 LED DLP has 1200 ANSI lumens, a contrast ratio of 25000:1 and HDTV 1920 x 1080 resolution. Thanks to the LEDs, the projector has a light life of up to 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. The projector is equipped with an integrated media player, so playing files directly is no problem. 1200 ANSI lumens ensure that an image width of 352 cm is possible. However, if there is ambient light in the room, the image should be no wider than 235 cm. Google TV turns the projector into a smart entertainment center with countless functions. Since the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos from a smartphone, tablet, or PC (Android, Windows, and iOS) with high resolution and surround sound directly via Wi-Fi. In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. The projector can also play 1080P and 4K (compressed) content with ease. With an operating noise level of only 30 decibels, this model is very quiet compared to others.
