

Wimius K14

WIMIUS K14

A brief introduction to the Wimius K14. The LCD LED projector has an HDTV resolution of 1920 x 1080 and 2500 ANSI -lumen. The manufacturer, Wimius, specifies a lifespan of 30,000 hours, which equates to over 20.5 years if used for four hours a day. Thanks to horizontal and vertical keystone correction, the projector can be positioned with great flexibility. An image width of up to 435 cm is possible, as the projector has 2,500 ANSI lumens. However, if there is ambient light in the room, the image should be no more than 290 cm wide. As the projector recognises AirPlay, Miracast and screen mirroring signals, it is possible to play high-resolution videos with surround sound directly via Wi-Fi. Another bonus worth mentioning is that the projector's Bluetooth function allows it to be connected to external wireless speakers. The projector also handles 1080p and 4K (compressed) video signals with ease.

Brief Introduction

Beta 2.5

Display Type

1 x LCD Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen

2500

1111 Lux (200 cm Screen width)
