

Wowlink W210

WOWLINK W210

Brief introduction to the Wowlink W210. The LCD LED projector has HDTV 1280 x 720 resolution and a contrast ratio of 10000:1. It is an LED projector with a light life of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. The integrated media player can play files directly. The horizontal and vertical keystone correction allows the projector to be positioned very freely. 200 ANSI lumens ensure that an image width of 144 cm is possible. However, if there is ambient light in the room, the image should be no wider than 96 cm. As the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos from a smartphone, tablet, or PC (Android, Windows, and iOS) with high resolution and surround sound directly via Wi-Fi. In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. The projector can also play 1080P and 4K (compressed) without any problems. With an operating noise of only 25 decibels, this model is very quiet compared to others.
