

XGIMI Mira 4K Pro

XGIMI MIRA 4K PRO

The XGIMI Mira 4K Pro is a DLP projector with HDTV 1920 x 1080 resolution and a contrast ratio of 20,000:1. The projector also features a built-in media player that allows files to be played directly. This projector has a throw ratio of just 0.175:1. To project a 2-meter-wide image, the projector needs to be positioned just 35 cm away from the screen. Since XGIMI specifies the projector's brightness in lumens, we've calculated an approximate ANSI lumen value in this case. In addition, thanks to its Bluetooth functionality, the projector can be easily paired with other speakers. Furthermore, it is compatible with Full HD 1080p, 4K (compressed), and 3D, meaning the projector can support all currently available Blu-ray formats.
