

XGIMI MoGo 2 Pro

XGIMI MOGO 2 PRO

The XGIMI MoGo 2 Pro standard portable 3D laser DLP projector has 448 ANSI lumens and an HDTV 1920 x 1080 resolution. The manufacturer specifies a laser lifespan of 25,000 hours, which would be the equivalent of 17.1 years at 4 hours per day. Since XGIMI specifies the brightness of the projector in lumens, we have calculated an approx. Ansi-Lumen value in this case. A picture width of up to 215 cm is possible because the projector has 448 Ansi-Lumen. However, if room light is present, the picture should be a maximum of 143 cm wide. The model recognises Chromecast and screen mirroring signals, making it possible to play high-resolution videos and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. The Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. The projector can also handle video signals 1080P and 4K (compressed). The operating noise of only 30 decibels makes projection quiet.
