XGODY 4k Portable

Brief Introduction
Beta 2.5

A brief introduction to the 4k Portable: The XGODY standard portable LED LCD projector offers 700 Ansi lumens, a contrast of 15000:1 and an HDTV 1920 x 1080 resolution. Due to the LEDs, the projector is specified with 30000 hours of light life, which converts to over 20.5 years at 4 hours per day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. Horizontal and vertical keystone correction makes image adjustment childs play. A picture width of up to 269 cm is possible. However, the picture should be smaller in room light. We recommend max. 179 cm. As the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Video signals 1080P and 4K (compressed) are also no problem for the projector.
