The L2 Plus LED LCD projector from Yaber has 700 ANSI lumens and an HDTV 1920 x 1080 resolution. Manufacturer Yaber indicates a lifespan of 30,000 hours, which would be over 20.5 years with 4 hours of viewing per day. The projector is equipped with an integrated media player, so playing files directly will not be a problem. The projector will be able to illuminate a screen measuring 269 cm in width well. However, if room lighting is available, the screen width should ideally not exceed 179 cm. Since the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Another extra to be mentioned is that the projector can be connected to external wireless speakers via Bluetooth. Furthermore, the projector can play 1080P without any problems.
