

Yaber T2 Plus

YABER T2 PLUS

Brief Introduction

Beta 2.5

A brief introduction to the T2 Plus: The Yaber standard portable LED LCD projector offers 450 Ansi lumens and an HDTV 1920 x 1080 resolution. The manufacturer specifies an LED service life of 30,000 hours, which equates to over 20.5 years with a daily viewing time of 4 hours. A picture width of up to 216 cm is possible as the projector has 450 Ansi lumens. However, if room light is available, the image should be max. 144 cm wide. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. Google TV turns the projector into a smart entertainment center with countless functions. As the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Even 1080P video signals are no problem for the projector.
