

# Yamaha DPX 1300

YAMAHA DPX 1300

With the DPX 1300, manufacturer Yamaha offers a DLP projector with HDTV 1280 x 720 resolution and a contrast of 5000:1 / 2500:1 Iris closed. With the lens shift function, the projector can be positioned very freely. 800 Ansi lumens ensure that a picture width of 287 cm is also possible. However, if room light is available, the picture should be a maximum of 191 cm wide. The model is also Full HD 1080P compatible. With only 30 decibels of operating noise, the model is already very quiet compared to others. It was launched in 2005 and is no longer offered by the manufacturer Yamaha.
