

ZOAYBU C9

ZOAYBU C9

The Standard Portable ZOAYBU C9 LED LCD projector has 500 ANSI lumens and an HDTV resolution of 1920 x 1080. The manufacturer specifies an LED lifespan of 30,000 hours, which, assuming 4 hours of daily use, would amount to over 20.5 years. An image width of up to 227 cm is possible, as the projector has 500 ANSI lumens. However, if there is ambient light in the room, the image should be no wider than 151 cm. The projector supports AirPlay and Miracast screen mirroring, which allows for the direct playback of high-resolution videos and surround sound from smartphones, tablets, and PCs running Android, Windows, or iOS. In addition, the Bluetooth capability is a useful feature for the projector, especially for wireless audio transmission. Playing 1080p and 4K (compressed) content is also no problem for the projector.
